U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510C)
1200 Pennsylvania Avenue NW
Washington, D.C. 20460

EPA Reg. Number: 60061-132

Date of Issuance: FEB 1 2010

Term of Issuance: Conditional

Name of Pesticide Product: Pettit Ultima SSA LD Ablative Antifouling Paint 1282 Blue

NOTICE OF PESTICIDE:

[x] Registration
Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Kop-Coat, Inc.
436 Seventh Avenue
Pittsburgh, PA 15219

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

- 1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment:
a. Revise the "EPA Registration Number to read, "EPA Reg. No. 60061-132".

Signature of Approving Official:

Marshall Swindell
Product Manager Team-33
Regulatory Management Branch I
Antimicrobials Division (7510P)

Dennis H Edwards for

Date:

2/1/2010

b. Remove the statement "Do not contaminate water, food or feed by storage or disposal" from the Pesticide Disposal and place under the "Storage" section.

c. Revise the Container Disposal to comply with the "Container Rule" under PR Notice 2007-4.

d. Change "Wash thoroughly with soap and water after handling" to "Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco or using the toilet.

e. Include the following statements to the "Environmental Hazards" section to read:

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Eliminating System (NPDES) Permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your local State Water Board or Regional office of EPA.

f. On the front panel change the statement "Harmful or fatal if swallowed" to "Fatal if swallowed".

g. Submit an updated "Data Matrix" to identify the data listed by "MRID" numbers in support the product registration.

h. Please note that the storage stability and corrosion characteristics studies must be submitted within one (1) year from the date of this Notice of Registration.

3. Submit two (2) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Page 3
EPA Registration No. 60061-132

4. The basic and two alternate CSFs dated January 11, 2010 are acceptable. A copy of the Product Chemistry review is enclosed for your information.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the "accepted" label is enclosed for your records.

If you have any questions concerning this letter, please contact Martha Terry at (703) 308-6217.

Sincerely,

Handwritten signature of Dennis H. Edwards in cursive, followed by the word "for" in a smaller, simpler script.

Marshall Swindell
Product Manager 33
Regulatory Management Branch I
Antimicrobials Division (7510P)

ULTIMA SSA LD

ABLATIVE ANTIFOULING PAINT

- Uses New Low Density Copper Technology
- Economical Antifouling Protection
- Apply Over Most Other Antifouling
- Excellent for Fiberglass, Wood & Steel Boats.

COMMERCIAL AND NON-COMMERCIAL USE
KEEP OUT OF REACH OF CHILDREN

WARNING

COMBUSTIBLE LIQUID AND VAPOR. VAPOR HARMFUL.
HARMFUL OR FATAL IF SWALLOWED.
SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

ACTIVE INGREDIENT:
Cuprous Oxide 23.70%
INERT INGREDIENTS: 76.30%
TOTAL 100.00%

COPPER AS METALLIC 21.05%

This product contains petroleum distillates.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

WARNING: Causes eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wear protective clothing such as gloves, long-sleeved cotton shirt, long pants and hat. May be fatal if swallowed or inhaled. Do not breathe sanding dust or vapor. Wear a mask or a respirator jointly approved by the Mine Safety and Health Administration and the National Institute for Occupational Safety and Health. Remove contaminated clothing and wash clothing before reuse. Wash thoroughly with soap and water after handling.

FIRST AID	
IF SWALLOWED:	<ul style="list-style-type: none"> * Call a poison control center or doctor immediately for treatment advice. * Do not induce vomiting unless told to do so by a poison control center or doctor * Do not give any liquid to the person. * Do not give anything by mouth to an unconscious person.
IF IN EYES:	<ul style="list-style-type: none"> * Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. * Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. * Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING:	<ul style="list-style-type: none"> * Take off contaminated clothing. * Rinse skin immediately with plenty of water for 15 – 20 minutes. * Call a poison control center or doctor for treatment advice.
IF INHALED:	<ul style="list-style-type: none"> * Move person to fresh air. * If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. * Call a poison control center or doctor for further treatment advice.
HOT LINE NUMBER: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-548-0489 for emergency medical treatment information.	
NOTE TO PHYSICIAN: Contains petroleum distillate – vomiting may cause aspiration pneumonia.	

ENVIRONMENTAL HAZARDS

This material is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill.

PHYSICAL OR CHEMICAL HAZARDS: Combustible. Do not use or store near heat or open flame. Use only with adequate ventilation during mixing, application and drying. Use absorbent clean-up material if spilled. For fires, blanket flames with foam, CO₂ or dry chemical. Wear MSHA/NIOSH certified breathing equipment.

STORAGE AND DISPOSAL

STORAGE: Keep closures tight and upright to prevent leakage. Keep container closed when not in use. In case of spillage, absorb and dispose of in accordance with local applicable regulations. *move to storage*

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. NOTE: When product is used in confined areas or applied by spraying, wear a respirator jointly approved by the Mine Safety and Health Administration (formerly the U.S. Bureau of Mines) and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR II.

NOTICE! This product contains a chemical known to the State of California to cause cancer, birth defects or other reproductive harm.

Product Description: This product utilizes the latest development in copper technology. Low density cuprous oxide contains the same level of copper by volume as traditional cuprous oxide but at a much lower weight and therefore less copper by weight is needed to provide maximum protection from fouling of all kinds. Low density copper guards against attachment of barnacles, annelids, tunicates, bryozoa, hydroids, algae and other fouling organisms. This product applies easily and dries quickly. May be used over old antifouling finishes in good condition. This product is ideal for wood, fiberglass and properly primed steel boats.

Compatibility: This product may be applied over most aged hard and soft antifouling coatings. Old tin copolymers and Teflon® finishes must be completely removed before applying this product.

Mixing: It is necessary to thoroughly mix the paint before using. If possible shake the can of paint on a mechanical paint shaker. Before using check the sides and bottom of the can to make sure all the pigment

has been mixed in. If mixing is going to be done with a wooden paddle or an electric drill mixer, pour off half of the liquid from the top of the can into another can and then properly mix in any settled pigment, then remix the two parts together thoroughly.

Application Temperatures: 40°F and above.

Application Method: Brush, roller or airless or conventional spray.

Thinner: For the first coat on new or bare wood, thin 10% with Pettit 120 Brushing Thinner. For other uses thinning is not normally required. Do not thin beyond your State's VOC limit.

Coverage: 500 sq. ft. per gallon.

Number of Coats: On new or bare wood-use 3 coats, allowing at least 3 hours between applications. On old painted hulls in good condition and on primed steel or primed fiberglass, apply one full coat of this paint followed with a second coat where severe fouling exists as in tropical waters.

Dry Times:	To recoat	To launch
90°F	2 hours	2 hours
70°F	3 hours	4 hours
50°F	6 hours	8 hours

The above dry times are minimums. This product may be recoated and launched after the minimum times shown. There is no maximum dry time before launching.

VOC: 320 grams/liter (2.67 lbs/gallon) as supplied.

PAINT SYSTEMS

The paint systems outlined below contain references to other Pettit products. Please read and understand the label and/or Technical Bulletin for these products as well to ensure that they are used properly. For further guidance, please contact your local Pettit salesman or Pettit Customer Service Department at (800) 221-4466 between the hours of 8:30 a.m. and 4:30 p.m. EST

Previously Painted Surfaces: If the previous coating is in good condition, thoroughly sand with 80-grit production paper and wipe clean with a rag dampened with Pettit 120 Brushing Thinner to remove coating residue. Apply two coats of this product observing the proper dry times. If the previous coating is in poor condition, remove to the bare surface by sanding or using paint and varnish remover. Proceed with the appropriate bare system as described below. Old tin copolymer paints and teflon finishes must be removed before applying this product.

Bare Fiberglass: All bare fiberglass, regardless of age, must be thoroughly cleaned using Pettit Bio-Blue Hull Surface Prep 92 and clean lint-free rags. Several cleanings may be necessary to ensure complete removal of contaminants. Change rags frequently during the dewaxing/cleaning process to ensure complete removal of contaminants rather than merely smearing them on the surface. New boats must be scrubbed with a detergent and water solution and rinsed with fresh water prior to dewaxing. After the surface has been dewaxed, sand it thoroughly with 80-grit production paper and rewash the sanded surface with Pettit 120 Brushing Thinner to remove sanding residue. Apply two coats of this product observing the proper dry times. If sanding is prohibited, as with certain vinyl-ester gelcoats, or is otherwise impractical, make sure the surface has been completely and thoroughly dewaxed and cleaned with Pettit Bio-Blue Hull Surface Prep 92. Then apply one thin continuous coat of Pettit 6998 Skipsand Primer. Topcoat with two coats of this product carefully following the topcoating instructions on the Skipsand Primer label.

Bare Wood: Sand the entire surface with 80-grit production paper and wipe clean with a rag dampened with Pettit 120 Brushing Thinner. Apply a coat of this product thinned 10% with the Pettit 120 Brushing Thinner to penetrate and seal the wood. Fill any open seams with Pettit Seam Compound and allow to dry overnight. Apply two full coats of this product observing the proper dry times.

Steel Hulls, Underwater Metal Parts and Keels: For steel hulls and metal keels, consult Pettit Technical bulletin TB431 High Build Epoxy Primer for complete priming instructions or consult the Pettit Technical Department or your local Pettit representative. For underwater metal parts, consult Technical Bulletin TB112 Underwater Running Gear Paint Specification for complete priming and application details.

DO NOT USE THIS PRODUCT ON ALUMINUM HULLS OR OUTDRIVES

Warranty: We guarantee this material to comply with our published specifications. Since the use of this material is beyond our control, we disclaim responsibility for its handling, use, storage, the results obtained or any injury or damage of any nature resulting therein.
